

Safety Data Sheet
BDG561 Yellow – Curing Agent

I. Product and Company Identification

Product Name: BDG561 Yellow – Curing Agent
Supplier: NRI 3875 Fiscal Court, Ste #100 Riviera Beach, FL 33404 (561) 683-6992
Emergency Phone Number: 800-535-5053
Product Description: Hardener solution
Product Use: Anticorrosive curing component
Chemical Name or Synonym: N/A

II. Hazards Identification

Classification of the substance or mixture

Acute toxicity / dermal – Category 4
Skin corrosion/irritation – Category 2
Eye damage/irritation – Category 2A
Respiratory sensitization – Category 1
Hazardous to the aquatic environment, long-term hazard – Category 2

Hazard Statements:

H312 Harmful in contact with skin.
H315 Causes skin irritation.
H319 Causes serious eye irritation.
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H411 Toxic to aquatic organisms in unreacted condition, may cause long term adverse effects in the aquatic environment (unmixed material only – ONCE MIXED THE MATERIAL IS HARMLESS TO ENVIRONMENT.)

Signal Word: Danger

Precautionary Statement:

P264 – Wash hands and skin contact areas thoroughly after handling.
P273 – Avoid release to the environment. (ONLY IN UNMIXED STATE)
P280 – Wear protective gloves, eye protection and face protection etc.
P305+P338+P351 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P337 + P313 if eye irritation persists: Get medical advice/attention.
P362 – Take off contaminated clothing and wash before reuse.
P391 – Collect spillage.
P501 – Dispose of contents/container through a waste management company authorized by the local government.

III. Composition/Information on Ingredients

Safety Data Sheet

BD561 Yellow – Curing Agent

Component	CAS#	%Composition
Benzyl Alcohol	100 - 51 - 6	5 - 10
4,4'Methylenebis(cyclohexyl)amine	1761 - 71 - 3	1 - 2
Methyleneoxide, polymer with benzenamine, hydrogenated	Mixture	12 - 24
Organic Acid	Not Available	1 - 3

IV. First Aid Measures

First Aid Measures for Accidental:

Eye Exposure: Hold eyelids apart, initiate and maintain gentle irrigation, (flushing), until the patient receives medical care. If medical care is not available maintain irrigation for 1 hour. Remove contact lenses.

Skin Exposure: Remove contaminated clothing. Wash affected skin thoroughly with soap and water. Wash contaminated clothing thoroughly before reuse. Get under safety shower after removing clothing. Seek medical attention if irritation develops after area is washed.

Inhalation: If breathing is stopped or labored give assisted respirations. Supplemental oxygen may be indicated. If heart has stopped, give cardiopulmonary resuscitation immediately. Move to fresh air.

Ingestion: Do not induce vomiting. Give one to two cups of milk or water to drink. Do not give anything by mouth to an unconscious person, consult a physician. If vomiting occurs naturally have patient lean forward to reduce the risk of aspiration.

General Advice: In all cases of doubt or when symptoms persist seek medical attention. Never give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed: No Available

Over-exposure signs/symptoms: No Available

V. Fire Fighting Measures

Flammability Classification: Combustible IIIB

Suitable Extinguishing Media: Carbon dioxide, foam, dry chemical, water fog.

Unsuitable Extinguishing Media: Water jet.

Special Fire Fighting Procedures: Use self-contained breathing apparatus, and full protective equipment.

Special Protective Equipment for Fire-fighters: Use protective firefighting clothing and positive pressure self-contained breathing apparatus to protect against potential harmful and/or irritating fumes. Do not use high pressure water since this may spread the area of the fire.

Unusual Fire and Explosion Hazards: Combustion products may include, but are not limited to: phenolics, carbon dioxide, acrolein, and carbon dioxide.

VI. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures: Exclude sources of ignition and ventilate area. Exclude non-essential personnel. Avoid breathing vapours. Refer to protective measures listed in Sections 7 and 8.

Cleanup and Disposal of Spill: Contain and collect spillages with non-combustible absorbent materials e.g. sand, earth, vermiculite, diatomaceous earth and place in a suitable container for disposal in accordance with waste regulations (see Section 13). Do not allow to enter drains or water courses. Clean preferably with a detergent, avoid use of solvents. If the product enters drains or sewers immediately contact the local water company; in the case of contamination of streams, rivers or lakes the relevant environmental agency. Dispose of in accordance with applicable local and federal environmental control regulations.

Safety Data Sheet BD561 Yellow – Curing Agent

VII. Handling and Storage

Precautions for safe handling: Put on appropriate personal protective equipment (see Section 8). Provide sufficient air exchange and/or exhaust in workrooms. Ensure adequate ventilation. Handle and open container with care. When using do not eat, drink or smoke.

Conditions for safe storage including any incompatibilities: Keep away from food, drink and animal feeding stuffs. Keep container tightly closed. Observe the label precautions. Store between 5 and 40 °C in a dry well ventilated place away from sources of heat, ignition and direct sunlight. No smoking. Prevent unauthorised access. Containers which are opened should be properly resealed and kept upright to prevent leakage. Store away from oxidising agents and strongly alkaline and acid materials. The principles contained in general guidance for storage of packaged potentially dangerous substances should be observed when storing this product.

VIII. Exposure Controls / Personal Protection

Exposure Guideline Limits: Not established for any ingredient.

Appropriate Engineering Controls: Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Provide readily accessible eye wash stations and safety showers.

Personal Protective Equipment:

General Protection: All personal protective equipment, including respiratory protective equipment, used to control exposure to hazardous substances must be selected to meet the requirements of the OSHA regulations.

Respiratory Protection: Air fed respiratory protective equipment should be worn when sprayed if exposure of the sprayer or other people nearby cannot be controlled to below the Occupational Exposure Values and engineering methods cannot reasonably be improved.

Eye / Face Protection: Eye protection designed to protect against liquid splashes should be worn.

Skin Protection: Cotton or cotton/synthetic overalls or coveralls are normally suitable. Grossly contaminated clothing should be removed and the skin washed with soap and water or a proprietary skin cleaner. Regular skin inspection of users of this product is recommended. ALWAYS WASH YOUR HANDS BEFORE EATING, SMOKING OR USING THE TOILET. See Section 12 for detailed information.

Hand Protection: When skin exposure may occur, advice should be sought from glove suppliers on appropriate types and usage times for this product. The instructions and information provided by the glove supplier on use, storage, maintenance and replacement must be followed. Barrier creams may help to protect exposed areas of skin, but are not substitutes for full physical protection. They should not be applied after exposure has occurred.

IX. Physical and Chemical Properties

Physical Appearance:	Yellow liquid
Odor:	Amine like
Odor Threshold:	ND
pH:	ND
Melting Point Range:	ND
Boiling point:	ND
Evaporation rate:	ND
Flash Point:	>219 °F
Method Used:	DIN 51758 Pensky-Martins Closed Cup
Flammability Limits (vol/vol%):	Lower: N/A Upper: N/A
Vapor Pressure:	N/A
Vapor Density:	N/A
Relative Density:	ND
Specific Gravity (H₂O = 1):	1.1 (Method BS3900 Part A19)

Safety Data Sheet
BD561 Yellow – Curing Agent

Water Solubility:	Immiscible
Partition coefficient (n-octanol/water):	ND.
Auto-ignition Temperature:	ND
Decomposition Temperature:	ND
Viscosity:	100 – 250 Poise (Method BS3900 Part A7)

X. Stability and Reactivity

Reactivity: No specific test data related to reactivity available for this product or its ingredients.

Chemical Stability: Stable under standard use and storage conditions.

Conditions to Avoid: Incompatible materials.

Incompatible Materials / Chemicals: Keep away from oxidising agents and strongly alkaline and strongly acidic materials to prevent the possibility of an exothermic reaction.

Hazardous Decomposition Products: In a fire, hazardous decomposition products such as smoke, acrolein, carbon monoxide, carbon dioxide, and oxides of nitrogen may be produced.

Hazardous Polymerization: Will not occur.

XI. Toxicological Information

Toxicological effects:

Acute Oral Toxicity: LD50: > 5,000mg/kg (rat)

Acute Dermal Toxicity: LD50: >20,000mg/kg (rabbit)

Skin irritation: May be skin irritant

Eyes irritation: Splashes in the eye may cause irritation and reversible local damage.

Sensitization: May be skin sensitizer.

Mutagenic Effects: No information available.

Carcinogenic Effects: No information available.

Reproductive Toxicity: No information available.

Developmental Toxicity: No information available.

STOT- single exposure: No information available.

STOT- repeated exposure: No information available.

Target Organ Effects: No information available.

Aspiration Hazard: No information available.

Symptoms related to the physical, chemical and toxicological characteristics: No data available

Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure: Repeated skin contact may lead to irritation and to sensitization, possibly with cross-sensitisation to other epoxies.

Long term exposure: No specific data.

XII. Ecological Information

Ecotoxicity: No data is available on the mixed product.

Aquatic toxicity: No further relevant information available.

Persistence and degradability: No further relevant information available.

Bioaccumulative potential: No further relevant information available.

Mobility in soil: No further relevant information available.

Safety Data Sheet BD561 Yellow – Curing Agent

Other adverse effects: No further relevant information available.

XIII. Disposal Considerations

Waste treatment methods: Do not dump to ground, sewer or watercourses. Discard any product, residue, disposable container or liner in full compliance with Federal, State, and Local regulations.

Uncleaned packaging: Dispose of in accordance to all local, state, and/or national regulation.

XIV. Transport Information

Ground & Ocean Transport: “Not Regulated” by USDOT or IMO

Air Transport:

UN Number: UN3334

Proper Shipping Name: Aviation Regulated Liquid, N.O.S

Hazard Class: 9

Packing Group: III

Technical Name1 (NOS entries only): Mercaptan Terminated Polymer

Marine Pollutant: (IMDG only)(Y/N): Possible Marine Pollutant in unreacted condition – do not allow to enter water courses.

Flashpoint (IMDG only): >200°F

XV. Regulatory Information

SARA Title III section 311/312 (40CFR370) : Acute health hazard

SARA Title III section 313 (40CFR372) : No reportable components

CERCLA status (40CFR302): no reportable quantity components

TSCA inventory status: Reported/included

Canadian DSL Status : reported/included

Chemicals known to the state of California to cause cancer or reproductive toxicity: REACH Annex XIV (SVHC): No listed components

REACH Annex XVII: No listed components

REACH status (EC 1907/2006): This material has been registered, pre-existed or is otherwise exempted from registration under the Registration, Evaluation and Authorisation of Chemical Substances.

Chemical safety assessment: Not available.

The information contained in this Safety Data Sheet does not constitute the user’s own assessment of the workplace risks as required by other health and safety legislation.

XVI. Other Information

Key Legend Information:

N/A – Not Applicable

ND – Not Determined

HMIS ratings: Health: 2; Flammability: 1; Reactivity: 0.

The information contained herein is based on the data available to us and is believed to be accurate. The data is offered in good faith as typical values and not as product specification. The information in this data sheet was compiled from information supplied by the vendors of the components of this compound. NRI makes no warranty either expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof.

Safety Data Sheet BD561 Yellow – Curing Agent

The recommended industrial hygiene and safe handling procedures are believed to be genuinely applicable. However, each user should review these recommendations in the specific context of the intended use and determine whether they are appropriate. NRI assumes no responsibility for injury from the use of the product described herein. The information is intended only to assist in the safe handling of this material.
